

Laser Gun

M83

Small town, too hot
I'm going for a trip
A place where dreams are made like comic strips
I see colours and planes, laser guns and champagne
I feel strong and smart, ready for a new start
It got me too And I know it's surprising
What brain can do
I can hardly believe it
What it makes me do
And I know it's surprising
What brain can do
I can hardly believe it So let's go and get it
Everything we've been dreaming
So let's go and get it
All the things we've been missing Now my blood is gone
And my face is drawn
Seven legs on top
And my heart just popped
People love me though
I'm their new Rambo
This is my kingdom
A different kind of home
You got me too And I know it's surprising
What brain can do
I can hardly believe it
What it makes me do
And I know it's surprising
What brain can do
I can hardly believe it So let's go and get it
Everything we've been dreaming
So let's go and get it
All the things we've been missing Got it all PAM
Got everything
Got it all PAM
Got all I need Got it all PAM
Got everything
Got it all PAM
Got all I need All you can do is keep dreaming
It's up to you, the meaning

All you can do is keep dreaming
It's up to you, the meaningGot it all PAM
Got everything
Got it all PAM
Got all I needGot it all PAM
Got everything
Got it all PAM
Got all I needGot it all PAM
Got everything
Got it all PAM
Got all I needTake me on a rollercoaster
Up and down and up and down
Ride, ride on a rollercoaster
I'm going up, I'm going down
Take me on a rollercoaster
Up and down and up and down
Ride, ride on a rollercoaster
I'm going up, I'm going down
