I'll Stay Me

Luke Bryan

T-shirt, blue jeans, don't like much on TV
Caviar and a Triscuit, ain't no red eye gravy on a biscuit
My deep southern drawl makes the conversation crawl
You're gonna have to hang around long enough to hear me outSome folks ain't happy like they are
Some wanna take things just a little too farSingers wanna be Hollywood actors
And millionaires wanna ride old farm tractors
I am just what I am, I'm just what you see
So I'll make it easy, I'll stay meMy granny and papa, still missing hee haw
And I love my little town where the people don't let you down
There's a girl down the street, got a kiss just waitin' on me
Hotdogs, sweet potato fry, when I go over tonightShe knows exactly who I am
A soft touchin', her love loving hard working manQuarterbacks wanna play lead guitar
And super models want smaller body parts
Change is good sometimes, but I still believe
I'm gonna make it easy, I'll stay meYeah, singers wanna be Hollywood actors
And millionaires want to ride old farm tractors
And I am just what I am, I'm just what you see
So, I'll make it easy, I'll stay meI'll stay me
I'm gonna make it easy, I'll stay me
