

# Skinnyman

## Static-X - Start A War

My little girl, my little girl  
My little girl, where are you?  
My fucked up world, my fucked up world  
My fucked up world destroyed youDay after day, day after day  
I get it now, I just go on without you  
Twisted inside, six miles high  
I rehearse how to say goodbye to youSkinnyman  
Turned into a monster, I'm a motherfuckerWrap it up tight, wrap it up tight  
Emotions are distorted  
It's no surprise, nothing alive  
All hope has been abortedDay after day, day after day  
I get it now, I just go on without you  
Twisted inside, six miles high  
I rehearse how to say goodbye to youSkinnyman  
Turned into a monster, I'm a motherfucker  
Inside I'm dead  
All used up, goddamn I miss herAs my skin turns yellow  
I forget this hell  
As the skies are bruised  
And the rain comes downAs my face turns pale  
Try to deal with these thoughts  
At the end of it all  
At the end of it allAnd at the end of it all  
At the end of it all  
At the end of it all  
At the end of it allAt the end of it all  
At the end of it all  
At the end of it all  
At the end of it allSkinnyman  
Turned into a monster, I'm a motherfucker  
Inside I'm dead  
All used up, goddamn I miss herAs my skin turns yellow  
I forget this hell  
As the skies are bruised  
And the rain comes downAs my face turns pale  
Try to deal with these thoughts  
At the end of it all  
I still miss you
