

Plain Gold Ring (Kjell Anderson Remix)

Zara McFarlane

Plain gold ring on his finger he wore
It was where everyone could see
He belonged to someone, but not me
On his hand was a plain gold band Plain gold ring had a story to tell
It was one that I knew too well
And in my heart it would never be spring
Long as he wears that plain gold ring
Whoa (Extended x2)
Night time comes calling on me
I don't know if I could ever be free
Can't stop these teardrops of mine
I'm going to love him till the end of time Plain gold ring has but one thing to say
I'll remember till my dying day
In my heart it will never be spring
Long as he wears that plain gold ring Whoa (Extended x2, Fading out)
