Angel Love

Samantha James

You're on my mind, livin' in my soul
A moment in time, move it and let it go

The air we breathe smells like love
Your melody, makes me sing the sweetest song
Your energy is heaven

And I just can't believe that you've been sent to me from above
You're my Angel Love
And I can't wait to feel your sunshine down on me from above
Angel Love

Here and now in the rhythm that we've found
Deep in the sound music is all around

The air we breathe smells like love
Your melody makes me sing the sweetest song
Your energy is heaven

And I just can't believe that you've been sent to me from above
You're my Angel Love

I've waited for you all of my life
I've waited for you all of my life

I can't wait to feel your sunshine down on me from above
Angel Love
Theonly thing that I need is the air that we breathe
Feel your sunshine
Melody
Sing the sweetest thing
You're my Angel Love
