

Next to You (Steve Hillier Version)

Bebel Gilberto

So winter's come
And summer's fall
Time is just a whisper
In a waterfall Forever now
Forever now
Every road I wander
Brings me back here Next to you
Be still my love
And close your eyes
Don't say a word No how's or whys
Everything I need, within me
All the dreams I've dreamed, are true
And all the starry skies, inside me
When I'm next to you
