

On Your Doorstep

The Elwins

If you don't say what I wanna hear
I'll start to fear that I wasn't clear
I'll keep on talking til you understand
The message running from another's gun
To take it far away from everyone
If it's not your own then leave it to me I'm out on your doorstep
You gonna let me come in?
I've come a long way
Will you welcome my stay until the morning
I need the time
If I can't be here then it must be mine Mark it off for here and there
I swear to be the only one
who cares enough to stay true
May be sitting while I talk
But you know it's not what you thought
Cause I'd stand up for you I'm out on your doorstep
You gonna let me come in?
I've come a long way
Will you welcome my stay until the morning
I need the time
If I can't be here then it must be mine
