Harsh Stone White

Skinny Puppy

harsh stone white eyes behold bruise baths soak crying bones every
days appeal to stop spirit calm on valium hate permeates and fills the air
icy clouds the atmosphere illusions pull hair no reaction how was
this done it exists by extraction of reason drooling drips the bile
of sanity through the thought lines vomiting were even the clock wailed
and sped past two tic tic toc in time in the real understanding myself thinking
stand back unafraid and unaffected stand back non molested were
even down down down again down here in the cracks face hidden cracks
harsh stone white even were even
