

The Man With All The Toys

Beach Boys

He's the man with all the toys
Someone found a lighted house
 Late one night
And he saw through the window
 A sight
 A big man in a chair
And little tiny men everywhere
He's the man with all the toys
Well how thrilled that someone

 Must have been
 And he must have been
 Tempted to go in
 He stayed out in the cold
 And when he left them he told
 About the man with all the toys
 He's the man with all the toys
 The man with all the toys
 He's the man with all the toys
