

# What Cheer

## Damaged Bug

Now, I say I love you  
More and more and more  
Without a smile  
Though I feel I need you  
More and more a score  
After a while Woe, like drowning in sorrow  
So high, so far, bizarre  
Aloft in the sky  
Sweet feelings will find you  
Hold on just for now  
I won't let us die Now, I rally against you  
Lying sick inside  
Alone on your side  
Sweet feeling escaped you  
Hold on to your high  
Just one more time
