

Look Back

Spiritual Beggars

Look back
I never look back No underhanded lies, better look me in the eyes
Speak the truth if you're still my friend
Cause I won't be fooled by any calculated tries
Better change your plan or take your final bow Oh, look back
I never look back To make me stick around, you have to compromise
It's a give and take, you gotta share the crown
Cause I won't be hooked by any mystifying lines
Watch me stand alone like I always have Oh, look back
I never look back Look back
I never look back Look back
I never look back Look back
I never look back Look back
I never look back
