

# It's You

## Westlife

There's a laugh in my eyes  
There's a waltz in my walk  
And it's been such a long time  
Since there was hope in my talk  
If you never knew  
What it is that's new, it's you  
'Cause when your hands are in mine  
You set a fire that everyone can see  
And it's burning away  
Every bad memory  
To tell you the truth  
If it's something new, baby, it's you  
It's you in the morning  
It's you in the night  
A beautiful angel came down  
To light up my life  
The world's a different place  
Where nothing's too hard to say  
And nothing's too hard to do  
Never too much to go through  
To tell you the truth  
Everything that's new, baby, it's you  
It's you in the morning  
It's you in the night  
A beautiful angel came down  
To light up my life, my life, oh  
So if I get to grow old  
With many years behind me  
There's only one thing I want  
One thing I need beside me  
For all that you are  
For everything you do  
For all that you've done  
Just for showing me the truth, it's you  
It's you, baby, it's you
