

# Erosion

## Switchfoot

Rain is a bad reminder of everything I don't wanna know  
Rain is a backseat driver takes me where I don't wanna go  
And it looks like the sky is caving in again  
I'm dry and cracked, the sky goes black  
And tut, tut, it looks like rain  
Erosion  
Oh, spirit fall like rain on my thirsty soul  
Erosion  
Oh, sweet erosion, break me and make me whole  
The thirstiest grounds can't take the rain  
My undecided vices washing on down the drain  
And it looks like the sky is caving in again  
My heart is cracked, the sky goes black  
And tut, tut, it looks like rain  
Erosion  
Oh, spirit fall like rain on my thirsty soul  
Erosion  
Oh, sweet erosion, break me and make me whole  
Oh, erosion, would you wash away my sins  
Oh, erosion, I need a second shot again  
Oh, erosion, would you break my heart again  
Oh, erosion, I am a broken hearted man, yeah, yeah  
Erosion  
Oh, spirit fall like rain on my thirsty soul  
Oh, erosion  
Oh, sweet erosion, break me and make me whole  
Erosion  
Oh, spirit fall like rain on my thirsty soul  
Erosion  
Oh, sweet erosion, break me and make me whole
