

# August

## Abandon All Ships!

You paid attention  
Was it time well spent?  
Lies in the past, got dragged by the current.  
How can you base what was a lie on trust  
Strangers now, lovers in august.

Mist fills my lungs,  
Save me while I'm still young

We're lost in the love we once knew  
I spilled my thoughts into the ocean

I tried to drown the pain away  
But my pain learned how to swim  
I think about it everyday  
I'm what she wants she needs him  
How can you base what was a lie on trust  
Strangers now, lovers in august

Mist fills my lungs  
Save me while I'm still young

We're lost with the love we once knew  
I spilled my thought into the ocean

Lovers in August  
Save me while I'm still young, save me while I'm still young.

I spilled my thoughts into the ocean  
Hoping they'd get back to you

We're lost with the love we once knew  
I spilled my thoughts into the ocean

We're lost with the love we once knew  
I spilled my thoughts into the ocean

Lover's in August, save me while I'm still young.
