Cavanaugh Park

Something Corporate

At cavanaugh park
Where I used to sit
All alone in the dark
And dream about things
That I cannot say
'cause grandma said destiny
Would blow me away
And nothings gonna blow me awayAt cavanaugh park
Where you used to take me
To play in the sand
And said to me son
One day you'll be a man
And men can do terrible things
Yes they canThere was never any place
For someone like me
To be totally happy
I'm running out of clock
And that ain't a shock
some things never do change At cavanaugh park
We used to get high
And watch teams as they fought
They loved my friend adam
But he always got caught
Man that kid made fucking up look cool
Aren't we all so cool now, no.There was never any place
For someone like me
To be totally happy
I'm running out of clock
And that ain't a shock
Some things never do change
Never do change
Never do change
Never do change
Never do changeAt cavanaugh park
Where I used to think
That my life would be good
And I would do things
That I thought that I should
And no ones going to tear me downThere was never any place

For someone like me
To be totally happy
I'm running out of clock
And that ain't a shock
Some things never do changeThere was never any place
For someone like me
To be totally happy
I'm running out of clock
And that ain't a shock
Some things never do change
Never do change
Never do change
Never do change
Never do change
