

When You Ain't Home

[Lindi Ortega](#)

Black clouds
Black clouds coming down
There's a darkness
A darkness all around
Sadness
Sadness on my mind
You're gone with the wind and leaving me behind
Ever since you walked out of my door
The sun don't want to shine no more
you left (missing part)
Baby won't you come back to me?
Bring back the blue skies that I need
Cause it's always raining when you ain't home
Shadows
Shadows over haze
And I'm hanging
Yes I'm hanging by a three?
hopeless
Hopeless, so it seems
At least I've always sunshine in my dream
Ever since you walked out of my door
The sun don't want to shine no more
you left (missing part)
Baby won't you come back to me?
Bring back the blue skies that I need
Cause it's always raining when you ain't home
Baby why you always gotta leave?
Why you got to do this to me
Can't you see?
Can't you see?
Ever since you walked out of my door
The sun don't want to shine no more
you left (missing part)
Baby won't you come back to me?
Bring back the blue skies that I need
Cause it's always frightning when you ain't home
Yes, it's always raining when you ain't home
Oh it's always raining when you ain't home
