

# Friday Night

## Loverboy

Burning up the miles, there's a full moon out tonight  
I've got a high-heel Venus, doing twice the speed of light  
Crank it up through the gears, see what she can do  
Women and cars everything they say is true  
Stand in line, no, no  
Wasting time, no  
Friday night, Friday night  
I just got paid, no sleep 'til Monday  
Friday night, Friday night  
Who cares, it's only money  
I've been bidin' my time, listen to the Boss man scream  
Workin' forty hours, payin' for this dream machine  
'Cause I'm living proof, every mad-dog has his day  
I'm going to find me a woman, head out on the Old Highway  
Stand in line, no, no  
Wasting time, no

Friday night, Friday night  
I just got paid, no sleep 'til Monday  
Friday night, Friday night  
Who cares, it's only money  
Friday night, Friday night  
Friday night, Friday night  
It's only money  
Friday night, Friday night  
I just got paid, no sleep 'til Monday  
Friday night, Friday night  
Who cares, it's only money  
Friday night, Friday night  
I just got paid, no sleep 'til Monday  
Friday night, Friday night  
Who cares, it's only money  
Friday night, Friday night  
Friday night, Friday night
