

# Temptation

## VAST

I went in the desert  
I went searching for the truth  
I stumbled across you  
And I know you're not the truth I went in the ocean  
I went looking for some love  
All I found is that I found  
I haven't found enough I stand alone now, I stand alone  
But can you save me from myself? You are my temptation  
You are my temptation  
To do what I knew is wrong You are my temptation  
You are my temptation  
To do what I knew is wrong  
What I knew is wrong was you I stand alone now, I stand alone  
Can you save me from myself? Oh, please They've been killing children  
And nobody seems to care  
They've been laughing at my God  
My God, I wouldn't dare You are my temptation  
You are my temptation  
You are my temptation You are my temptation  
You are my temptation  
You are my temptation
