Think It Over

Retrotech

Think it over
Have you ever felt you'd leave your own impression
Need to know your mind, yeah
Feel the pressure should be giving it up to the right sensation
Right now is a friend of mine
And it seems to me we've got things sown up
(Work it out)
'Cos we're working it out
You thought I couldn't handle it
I thought that I told you, no no
'Cos it means a lot to me
Means are hard to find
(Feeling something better)
And and and every little thing that I do
Makes it alright, alright, alright
Think it over now
Shake it up and round
Get your life back, you've forgotten that
That your moment is right now
(Think it over now)
Spend your days running round
Everything gets you down
So get your life back, get your life back
'Cos your moment is right now
Get your life back, oh
Give it up now
I thought that I told you
If there's a sound, give it a rhyme
There's no point in letting it fall out of time
'Cos you know
The life of a soldier is falling in line
Let it go, it seems that
I'm only saying things you know
'Cos it means a lot to me
And means are hard to find, no no
(Feeling something better)
And then every little thing that I do
Makes it alright, alright, alright, now, yeah
Can't you think it over now?

Shake it up and round
Get your life back, you've forgotten that
That your moment is right now
(Think it over now)
Spend your days running round
Everything gets you down
So get your life back, get your life back
'Cos your moment is right now
Feeling kind, feeling kind
Ho, I'm feeling kind
I'll get you down
(Shake it up)
Shake it up turn around
'Cos you work it out
(Shake it up)
Work it out
'Cos it means a lot to me, yeah
Your means are hard to find
(Feeling something better)
And then every little thing that I do
Makes it alright, it's alright, alright
Just can think it over now
Shake it up and round round
Get your life back, you've forgotten that
That your moment is right now
(Think it over now)
Spend your days running round
Everything gets you down
So get your life back, get your life back
('Cos your moment is right now)
Get your life back, back
Ho, no no no no no no no no no
'Cos your moment is right now
Yeah yeah
