

Step Into the Shadows (feat. Idris Elba)

Mr Hudson

She said step into the shadow
Come out of the light
She offered me her cigarette
I said nah babe you're alright
She said step into my shadow
I don't bark but I bite
She said she's feeling thirsty
She needs something tonight
So step into the shadow
I now can't take my eyes of,Â her lips blood red
Redder than red
Eyes like moons
Carry me away from hereWhat could I do?
She said let's find a cozy dive bar
Or we can do this in the street
She'll have a bloody Mary
I need something to eatSo step into the shadows
Come of the light
She offered me my future self
I offered her a light
I stepped into the shadowYeah I wish we never met
I wish I never saw you standing there yeah
Your silhouette turned a switch in my head
A trick in my bed
You drew blood now it's hard for me to leave
Now it's impossible to leave you
Death of a salesman, death of salesman
Oh yeah you killed a man
Yeah, a man on that run
When you tempt me with the passionate, oh,
With the passionate,Â wish we never met
Now I'm never gonna leave, this is who I wanna be
ThisÂ is who I wanna be
Caught me on another side
That darker side, that newer side, that suicidewq
