

La Femme Accident (12'' Version)

Orchestral Manoeuvres In the Dark

La femme accident's
Got everything you want
You never have to know
You never have to show
She's hanging on your every word She clings to your heart
She won't let you depart
Oh, this is mine
But she's with you all the time
She's crying like a fragile child But if you get to know her
She's not a little girl
And if she gets to know you
You can't escape her world La femme accident
A woman full of want
Her heart's on the line
You haven't got the time
She suffers like some Joan of Arc She says, there's just no justice
In this world
She's paradise for a day La femme accident
What reason could you want?
Just use her and turn away
La femme accident's
Got everything you want
She's paradise for a day
