

# Smoke

## Alkaline Trio

Over and out of it for one more plane ride out  
I'm not sure and never was if this would all head south, or what  
Wait here a month or two will pass, I'm sure I won't  
Faith dear, enough to get you by until we're home And I wish, I don't wish I still smoked  
And I wish that I wrote you one original note Take me home, tuck me in  
Moon go down, do it again  
Take me home, tuck me in  
Moon go down, do it again Over and out of it for one more plane ride out  
I'm not sure and never was if this would all head south And I wish, I don't wish I still smoked  
And I wish that I wrote you one original note Take me home, tuck me in  
Moon go down, do it again  
Take me home, tuck me in  
Moon go down, do it again
