Apple Eyes

Swoop

Get on the A train
Get on the right track
If you got a problem tell me
I can fix that
And if you got the rigging baby
I got the boat
And if you got a castle
Well you know I got the moat
(it's alright)
If you need some lower level
I'll be your elevator
If you want a sure glide
And if you need some time baby I got forever
I got your stuff ain't that enough?Apple eyes drinking strawberry wine together
You and I and a blueberry sky foreverNow if you're feeling hot
On account of the sun
I got the body lotion if you wanna get some
And if you want some money
Ha I got a gold mine
And if you need direction
I'm a one way sign
(That's alright)
If you need a new kind of rhythm
I got a lemon bass that plays in apricot time
Sagittarius or Leo or Libran
I'll be your zodiac on a different star trackChorus (x2)Hit it Girl
I Think I love You
OhhhhhhApple eyes drinking strawberry wine together
You Got A Problem I Can Fix That
You and I and a blueberry sky forever
I got the body lotion if you wanna get some lotion, babe
Apple eyes drinking strawberry wine together
Together, Together, Together, Together,
You and I and a blueberry sky forever
Forever.
