

# Curtain Call

## Con Funk Shun

Hey, we're calling on you  
We wanna know, what can you do?  
Can you party? Can you let yourself go?  
Can you do it, yeah, I just wanna know  
Is it good, is it right?  
We want to bring it home for you tonight  
Step right up, write your name on the wall, yeah  
Time to take your curtain call  
Keep the music alive  
Just rock with it  
Just flow with the feeling inside  
Won't you shine your light?  
We're watching you  
You're the star tonight  
Is it good, is it right?  
We want to bring it home for you tonight  
Step right up, write your name on the wall  
Time to take your curtain call  
Is it good, is it right?  
Well, we want to bring it home for you tonight  
Step right up, write your name on the wall  
Time to take your curtain call  
Keep the music alive  
Just rock with it  
Just flow with the feeling inside  
Won't you shine your light?  
We're watching you  
You're the star tonight  
Is it good, is it right?  
Yeah, we want to bring it home for you tonight  
Step right up, come on, write your name on the wall  
Time to take your curtain call  
Step right up, come on  
And write your name on the wall  
Time to take your curtain call  
Is it good, is it right?  
We want to bring it home for you tonight...
