Sunshine Fires

Teddy Geiger

Sunshine fires its first shot
And I like that feeling a lot
Tends to make me smile
And I pull myself out of bed
Put some clothes up over my head
Then I pull the doorThis is how it begins
So simple but it ends so wrong
Cuz when youre gone, its like God put out the sun
My mind wanders
I get nervous about the one I love
Cuz when youre gone, its like God put out the sunDo you feel the same way too
Ive been thinking a lot about you
And Id love to know
Slowly morning feels like midnight Im paralyzed
And its dark in my head
Could you send some light my wayChorusThis is how it begins
So simple, youre where I belong
Cuz when youre gone, its like God put out the sun
My mind wanders
I get nervous about the one I love
And when youre gone, its like God put out the sun
