

# The Body and The Blood

## Vendetta Red

sister insomnia my eyes weep worms for you  
angel anathema i'll drink your blood  
the blood you shed for me  
was all you gave to me  
my bold bulimic belly dancer  
narcissistic necromancer  
run just run from me  
as day consumes the night the earth shall cover me  
medusa madonna murder me marry me  
under your vapid vultures wings  
i'll suckle your black milk  
and let it trickle down my tongue  
your womb mouth kiss could kill  
as day consumes the night i'll drink your blood  
my cold kinetic claws and cancer  
narcissistic necromancer  
this time all riots im ready to go
