Stars and Memories

Hush little darling, you know it_`s true, I`m here for you
This you fear but you know it`s true, never can we undo
This is me and this is you, this is you

Won`t you take and hold my hand, I beg you, I beg you
I miss it everyday, I glanced at you, please just undo
please just undo...

My warm sweet darling, you`ve taken me home, just look what IÂ´ve become
Two separate ways to get lonesome, just look what IÂ´ve become
This you see but still you block me, you block me

Won`t you take and hold my hand, I beg you, I beg you
I miss it everyday, I glanced at you, please just undo
please just undo...

Please just undo...
