Firebug

Mudhoney

Burn it up, burn it down let it burn across the town
My heart will catch on fire when my firebugs around

Firebug, Firebug
Sheâ€™s my little firebug
She can light a fire with little bitty kiss and a hug

I took her to the winter ball she melted all the snow
That little girl starts dancing know she torches up the floor

Firebug, Firebug
Sheâ€™s my little firebug
She can start a fire when she be just a cuttâ€™n up a rug

Try to make my killer move a lonely summer night
She strung me out and lit me up like Christmas in July

Firebug, Firebug
Sheâ€™s my little firebug
She can light a fire with little bitty kiss and a hug

Burn it up, burn it down let it burn across the town
My heart will catch on fire when my firebugs around

Firebug, Firebug
Sheâ€™s my little firebug
She can light a fire with little bitty kiss and a hug x2
