

# Lovestruck

## Rachel Potter

Watching you walk down the street  
You smile at me when our eyes meet  
And just like that, I get butterflies  
We laugh all day and you hold my hand  
Small talk, beach walks, toes in the sand

The world stands still with every kiss Hold on tight and don't let go

Baby I just want to let the heart on my sleeve show Lovestruck head over heels, driving fast, hands off the wheel

I can't slow down, I don't know how

'Cause I'm starstruck, head in the sky

Don't look down, don't ask why

Maybe I'm crazy, feeling the way I do

Lovestruck living in love with you Sitting on the roof in evening air

You kiss my cheek and stroke my hair

You're sweeter than the sweetest dream

We talk about how we're gonna last

And learn from mistakes we made in the past

You and me babe are real good thing Hold on tight and don't let go

Baby I just want to let the heart on my sleeve show I'm lovestruck, head over heels

Driving fast, hands off the wheel

I can't slow down, I don't know how

'Cause I'm starstruck, head in the sky

Don't look down, and don't ask why

Maybe I'm crazy feeling the way I do

Lovestruck living in love with you I can't quite explain it

Reckless and a little dangerous

But I can't see it any other way

'Cause every time I'm with you

I light up like a kid who

Knows she's got the good stuff Cause I'm lovestruck, head over heels

Driving fast, hands off the wheel

I can't slow down, I don't know how

'Cause I'm starstruck, head in the sky

Don't look down, and don't ask why

Maybe I'm crazy feeling the way I do

Lovestruck living in love with you Lovestruck living in love with you

Lovestruck living in love

Lovestruck living in love

Crazy for you, so crazy

And I'm lovestruck living in love with you

Lovestruck living in love with you
