

We Party (You Shout)

Andrew W.K.

Hey, hey, hey
Hey, hey, hey We party, party
Doing it right
We like to party, party
Every single night We always party, party
We're driving around
We party, party
We're jamming to the sound You shout
Now everybody shout back
You shout
Now everybody shout back You shout
Now everybody shout back
You shout
Now everybody shout back You can do what you love
You can live however you want
You can do what you want
And have all kinds of fun, oh, yeah You'll be running all around
Flying through the air
Driving down the road
Life without a care Holding nothing back
Pushing down the lane
Pulling up the slack
Dancing in the rain We party, party
Doing it right
We party, party
Every single night We always party, party
We're driving around
We party, party
We're jamming to the sound We're all in this together
We get together where ever we are
If you're feeling alive
You're already a star, don't you see? You'll be doing everything
Building up the fun
Loving what you are
Loving everyone And putting on the Ritz
Putting on a show
Showing 'em your tits
Show 'em 'til they blow You shout
And everybody shout back

You shout
And everybody shout backYou shout
And everybody shout back
You shout
Now everybody shout backWe party, party
Doing it right
We like to party, party
Every single nightWe always party, party
We're driving around
We party, party
We're jamming to the soundWe shout, shout, shout, shout
We'll have a cool party
We're gonna throw that party
Hey we're gonna run a hot partyYou shout
Now everybody shout back
You shout
Now everybody shout backYou shout
Now everybody shout back
You shout
Now everybody shout backYou shout, you shout
Now everybody shout back
You shout, you shout, you shout
Now everybody shout backYou shout, you shout, you shout
Now everybody shout back
You shout, you shout, yeah, yeah
