# Isolation

## Joy Division

In fear every day, every evening
He calls her aloud from above
Carefully watched for a reason
Painstaking devotion and loveSurrendered to self preservation
From others who care for themselves
A blindness that touches perfection
But hurts just like anything elseIsolation, isolation, isolationMother, I tried please belief me
I'm doing the best that I can
I'm ashamed of the things I've been put through
I'm ashamed of the person I amIsolation, isolation, isolationBut if you could just see the beauty
These things I could never describe
These pleasures a wayward distraction
This is my one lucky prizeIsolation, isolation, isolation
Isolation
