## Pelt

I refuse to remain in regret  
To pander like a slave to your wants  
No contrition from me will you get  
    No submission to dilettantes  
    I've existed too long in secret  
I have lived like a man confined  
    Epicene and elaborate  
    Fatalistic and resigned  
        Passionflower  
        Catherine wheel  
        Higher power  
    Help me start to heal  
Now I've bathed in the sea of sunset  
And the rain washes clean my mind  
Every one of my needs will be met

Every planet will be aligned  
    Passionflower  
    Catherine wheel  
    Higher power  
    Help me start to heal  
    Over power all my fear  
        From hour to hour  
    Guide me through the realm  
    I refuse to remain in regret  
    I refuse to be left behind  
        Passionflower  
        Catherine wheel  
        Higher power  
    Help me start to heal
