Out At The Pictures

Hot Chip

It's on every street, it's funky, cheap
Sometimes you find you're in your mind
Are you at the pictures or out at sea?
It's better this way trust, do you believe me?
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
There's a whole world in there
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
Just don't stop and stare
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
You will find gel there
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
There's a hole in the world there
We like it full, what we just got
It's better still, with something hot
Out at the kitchen I cannot see
It's better this way trust, do you believe me?
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
There's a whole world in there
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
Just don't stop and stare
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
You will find gel there
(Weather, weather, weather, weather, weather
Weather, weather, weather, weather, weather, weather)
There's a hole in the world there
