

Do You Believe Me?

Cheap Trick

Did did did did did did
You know you're lady is now seeing another man?
Yeah, go ahead and ask her, she just don't understand
And even when you're with her you know she feels so alone
She says it's because she's lonely you don't see her at home Do you believe me?
Come get your love
She needs you
Take her hand
Bide your time Do you believe me?
Come running home
As your life passes by
And It's gone
Gone, 'cause it's gone
Yeah, gone 'Cause it's gone
