Country Strong

Shana Feste

Cat Diesel Power cap pulled down low
Makin' that bacon, row by row
Can't get them muscles at the YMCA
It's from choppin' cotton, cuttin' corn and slingin' that hayBeen heavy liftin' since the crack of dawn
No doubt about it that boy's country strongHe's up in the mornin' yawnin' with them work boots on
Workin' like hell 'til the dinner bell brings him back home
Blue collar in his blood, backwoods in his bones
No doubt about it that boy's country strongHe wears an old felt hat on his head
Got a saddle for a pillow and the ground for a bed
Spurs on his heels, reins in his hands
Drivin' cattle, ropin' steers and burnin' his brandThere ain't no lettin' up all day long
No doubt about it that boy's country strongHe's up in the mornin' yawnin' with them Tony Llama's on
Workin' like hell 'til the dinner bell brings him back home
Blue collar in his blood, backwoods in his bones
No doubt about it that boy's country strongYeah, behind every good man there's a woman
She's the one thing that keeps him goin', keeps him goin'She's up in the mornin' yawnin' with that coffee pot on
Workin' like hell 'til the dinner bell brings him back home
Blue collar in her blood, backwoods in her bones
No doubt about it that girl's country strongCowboys, plowboys, good hearted women
They're all country strong
