Light

Edith Frost

We'd switch the darkness
Over into the light
And wouldn't let sickness
Take our closest friendsWere we so wrong
To want them here
Now were we so wrong
To want them here
Take their misery over
Don't disappearWe'd share the cost
Stand up in your defense
And wouldn't let sickness
Take our closest friendsWere we so wrong
To want them here
Now were we so wrong
To want them here
Take their misery over
Don't disappear
Don't disappear
Don't disappear
Don't disappear
