

Theme from Mission Magic

Rick Springfield

Do you believe, you believe in magic, 'cos I believe, I believe that I do

Yes, I can see, I believe that it's magic

If your mission is magic, your love will shine thru
Do you believe, you believe in magic, 'cos I believe, I believe
that I do

Yes, I can see, I believe that it's magic

If your mission is magic, your love will shine true
If there's one thing that the world needs, its a magic singing
song

And I'll teach it to the whole world and make them sing along

Love is magic, it's so easy, and it's not hard to do

'Cos everybody, wants somebody, to give a little magic to
Do you believe, you believe in magic, 'cos I believe, I
believe that I do

Yes, I can see, I believe that it's magic

If your mission is magic, your love will shine true
I've seem so many, unhappy people, reaching out in vain

You got the power, to shower, love like summer rain

Love is magic, it's so easy, and it's not hard to do

'Cos everybody, wants somebody, to give a little magic to
Do you believe, you believe in magic, 'cos I believe, I
believe that I do

Yes, I can see, I believe that it's magic

If your mission is magic, your love will shine true
Do you believe, you believe in magic, 'cos I believe, I believe
that I do

Yes, I can see, I believe that it's magic

If your mission is magic, your love will shine true
If your mission is magic, your love will shine true

If your mission is magic, your love will shine true
