

# A Moment With You

## Nick Colionne

(You can't keep holding it in when it's something good)

Ooh babyHey, this won't take much time

We won't touch, we'll just wait for signs

And nothing was further from my mind

Than this moment with youOoh, but if you'd only told me baby

I would have made some other plans

If I'd only seen it sooner

But what away with your hands, you had

I wanted that moment with youI know that is wrong

If you need me, I'm here, turns me on

I can't help thinking its a miracle, you're here

I can't help thinking its a miracleSay, you don't waste much time

We don't touch, do we baby?

But still my hands are tied

For that moment with youOoh, but if you'd only told me baby

I would have made some other plans

If I'd only seen it sooner

But what away with your hands, you had

I wanted that moment with youYou know that I'm strong

I've no reason to fear, am I wrong?

I can't help thinking its a miracle, you're here

(You can take away)

I can't help thinking its a miracleI can't help thinking its a American

(You can take away)

I can't help thinking its a miracle

I can't help thinking its a miracle, you're here

(You can take away)You can't keep holding it in when it's something good

Get up, get up

You can't keep holding it in when it's something good

Get up, get upAnd who can you trust?

(You can't keep holding it in when it's something good)

Dealing out justice with a minimum of fuss

Who baby

(Can't keep holding it in when it's something good)

Dealing out justiceYou can't keep holding it in when it's something good

You can't keep holding it in when it's something good

You can't keep holding it in when it's something good
