

Flesh and Bone

Burning Brides

Has the terrible danger that surrounds us
Become like a drug?
Are we more like strangers in a glass house
We're rich with the bloodHow can you leave the black out?
You're only flesh and bone
Flesh and boneWhen a blanket of winter is all around us
We have to stay warm
When there's no one there you can count on
You have to transformHow can you leave the black out?
How can you leave the black out?
You're only flesh and bone
Flesh and bone
Flesh and bone
Flesh and boneHow can you leave the black out?
You're only flesh and bone
Flesh and bone
Flesh and bone
Flesh and bone
