Like

Taproot

You look like me, I'm sorry for you
You talk like me, I can't understand you
You think like me yea, you're fuckin' crazy
You want to be me but that's okay because
You remind me of me someway

But only the good 'cause I'm just meHangin' by a thread for your honor Just helps me to see inside myself

Hangin' by a thread for your honor

Just helps me to seeYou act like me 'cause you're embarrassing

You talk to me but don't listen

You think like me yea, you're so damn crazy

You want to be me but that's okay because

You remind me of me someway

But only the good 'cause I'm just meHangin' by a thread for your honor

Just helps me to see inside myself

Hangin' by a thread for your honor

Just helps me too seeWhen these memories become liquid

Dreams just like fantasies

And like fallen leaves

I guess all I need is to find

My desires and set out to acquire themYou look like me, I'm sorry for you You think like me yea but that's okay because

You remind me of me someway

But only the good 'cause I'm just meHangin' by a thread for your honor

Just helps me to see

(See inside myself)

Hangin' by a thread for your honor

Just helps me to see

(See inside myself)Hangin' by a thread for your honor

Just helps me to see inside myself

(See inside myself)

Hangin' by a thread for your honor
Just helps me to see
