

High Acetate

Rival Schools

Trouble abounds when you've left out of the makeup
Sunday dreams, a launch of schemes to overwhelm
I hope I am the only one to weigh in on the colors, I choose High acetate, fly elevate
High acetate, fly elevate Unrealistic ideas misbehavin' like reindeers that pull the sleigh
I bet you never thought your movie would turn out this way
Can't take it, it's mine
Leave it behind, it's your chance to make High acetate, fly elevate
High acetate, fly elevate Up onward, moving forward
Creation with no hesitation
Witness a launch of schemes so fine
Going to realize all your dreams of mine High acetate, fly elevate
High acetate, fly Up onward, moving forward
Creation with no hesitation High acetate
