Impossible Love

Daniel Johnston

This is an impossible love
The kind you only hear of in cinematic dreams
This is an impossible love
With syndromatic schemes
It's never just as lovely as it seems
Yes this is an impossible love
The flame in lust is an exhaustible love
And flames combust
We flames would be hand in glove
And why should two loves not agree, no
This is an impossible love
Though both of your arms would offer a tender caress
It's such an exhaustible love
Fueling my heart with only illusion at best

C'est un jeu d'echecs
Un jeu de flechettes
Le mouvement dans l'obscurite
Vide de verite
C'est une ligne qu'ou ne peut pas voir
Un dessin dans l'air
