

Sunshine (89)

Alexander O'Neal

Oh...

Cloudy was the day when Sunshine came into my life

And made it brighter

She touched me with her warmness as the light shines from her smile

She makes me happy

I could never keep myself away 'cause when I'm next to her

I feel the warm rays reaching out from her loveShe touched me with a smile that glows

I can't go a day without my Sunshine

She warms me with her heart of gold and

I can't go a day without my sunshineWhen life's troubles come around

And they start to get me down I call my Sunshine

Because there's no other remedy strong enough for me

Just her

I can never keep myself away 'cause when I'm next to her

I feel those warm rays reaching out from her loveShe touched me with a smile that glows

I can't go a day without my Sunshine

She warms me with her heart of gold and

I can't go a day without my sunshineShe touched me with a smile that glows

I can't go a day without my Sunshine

She warms me with her heart of gold and

I can't go a day without my sunshineOh...I can never keep myself away

'Cause when I'm next to her

I feel those warm rays reaching out fromSunshine, Sunshine, SunshineAll I want to say girlYou know,
sometimes sunshine turns to rain
