

# Taste of This

Jann Arden

I know you're sleeping  
I hope you're dreaming all about us  
I can remember your body moving  
Through the shadows I have never been so in love  
I thank God above that I found you darling  
And I know it's a miracle  
I can see into everything we are I can't remember my past is over  
I've found happiness  
I have surrendered all of my yesterdays  
For just one taste of this I hear your heart beat  
It's in my memory just like sugar  
Kiss me like candy  
As warm as summer, sweet as kindness I have never been so far gone  
I believe in God, I believe in you  
And I know when I close my eyes  
I will see the light come on shining through I can't remember my past is over  
I've found happiness  
I have surrendered all of my yesterdays  
For just one taste of this I can sleep at last in your arms  
All I want is for you to love me back I can't remember my past is over  
I've found happiness  
I have surrendered all of my yesterdays  
For just one taste of this I can't remember my past is over  
I've found happiness  
I have surrendered all of my yesterdays  
For just one taste of this
