

# Back to Allentown

## Bracket

I wish I could make it back to Allentown  
Maybe I can get someone to show me aroundYou were right, I was wrong  
    I've been this way for far too long  
        You hate me, I love you  
Show me a place where I belongI wish I could make it back to Allentown  
Maybe I can get someone to push me aroundYou were right, I was wrong  
    I've been this way for far too long  
        You hate me, I love you  
Show me a place where I belongYou don't matter as much as you think  
    Or much at all  
        And when you become extinct  
I'll watch you fallI wish I could make it back to Allentown  
Maybe I can get someone to push you aroundYou were right, I was wrong  
    I've been this way for far too long  
        You hate me, I love you  
Show me a place where I belong
