

Say So (Vasco Remix)

Terror Jr

[Verse 1]

I got ten toes down

I must be floating

My emotions like in and out

Now I ain't got no feel[Pre-Chorus]

They talk about, talk a lot about us in a bad light

My heart is an angel, twisted and tangled

My have me unstable

Love me from every angle

Tell me that you can when you're able

Shut me down when I'm fatal[Chorus]

I want you and I need you and I got you

And I'm gonna have you if I say so

I want you and I need you and I got you

And I'm gonna have you if I say so

I want you and I need you and I got you

And I'm gonna have you if I say so

I want you and I need you and I got you

And I'm gonna have you if I say so[Verse 2]

I got ten toes down

I'm going in a little loud

You need my bod like a Mophie

Give you hours just to hold me[Pre-Chorus]

They talk about, talk a lot about us in a bad light

My heart is an angel, twisted and tangled

My have me unstable

Love me from every angle

Tell me that you can when you're able

Shut me down when I'm fatal[Chorus]

I want you and I need you and I got you

And I'm gonna have you if I say so

I want you and I need you and I got you

And I'm gonna have you if I say so

I want you and I need you and I got you

And I'm gonna have you if I say so

I want you and I need you and I got you

And I'm gonna have you if I say so[Outro]

I want you and I need you and I got you

And I'm gonna have you if I say so
