

# A Water Prayer

## Deep Blue Something

It's a waiting game you play  
Still you think that you can win  
So you play on  
You play on, play on  
And the rush hour weaves you home  
In another day you will break  
You will break down, you will break down  
I know it, like me  
Don't be that way  
Don't act like that  
Don't be, no don't be  
Please don't be  
On the business card you made  
Is a name that you don't own  
Credit given, credit taken  
Yeah take it  
In another day you'll sink  
You're the only one afloat  
But the best move, if you make it  
You won't make it, is to leave  
Don't be that way  
(Even though you want to)  
Don't act like that  
(Do what you want to)  
Don't be, no don't be  
(Do what you want)  
Please don't be like me  
Don't be that way  
(Even though you want to)  
Don't act like that  
(Do what you want to)  
Don't be, no don't be  
(Do what you want)  
Please don't be  
Don't be that way  
(Even though you want to)  
Don't act like that  
(Do what you want to)  
Don't be, no don't be

(Do what you want)  
Please don't be like me  
Don't be that way  
(Even though you want to)  
Don't act like that  
(Do what you want to)  
Don't be, no don't be  
(Do what you want)  
Please don't be like me
