

Time

Anastacia

Time keeps running away
No matter what's left behind
It keeps on moving
Oh, time, time They say timing is everything
But nothing you control
'Cause there's always tomorrow
But tomorrow never knows it's 1 day at Time keeps running away
No matter what's left behind
It keeps on moving
Tomorrow is not in today
And all of your yesterdays
Are only a matter of time, time And the journey of a lifetime
Will begin with one step
When you're climbing up that mountain
It's so easy to forget, it's one step at a Time keeps running away
No matter what's left behind
It keeps on moving
Tomorrow is not in today
And all of your yesterdays
Are only a matter of Time keeps running away
No matter what's left behind
It keeps on moving
Tomorrow is not in today
And all of your yesterdays
Are only a matter of time oh, time Whoa oh, whoa oh, who
Ooh I said now Time keeps running away
No matter what's left behind
It keeps on moving
Tomorrow is not in today
And all of your yesterdays
Are only a matter of Time keeps running away
No matter what's left behind
It keeps on moving
Tomorrow is not in today
And all of your yesterdays
Are only a matter of Time keeps running away
No matter what's left behind
It keeps on moving
Tomorrow is not in today

And all of your yesterdays
Are only a matter of Time keeps running away
Time keeps running away
Time
