

# Daffodil

## Tonic

Keep me under your bones  
Walk with me when you roam  
Isn't it crazy how we learn to return?  
Isn't it crazy how we run to trust it? So don't leave me here holding daffodils  
It all seems clear when I'm lying still  
Though you never will Keep me under your style  
Walk with me down the aisle  
Isn't it crazy how we learn to return?  
Isn't it crazy how we run to trust it? So don't leave me here holding daffodils  
It all seems clear when I'm lying still  
Though you never will, daffodil I will not fall  
I will not fall, I will not So don't leave me here holding daffodils  
It all seems clear when I'm lying still  
Though I never will, daffodil
