## Sounds Under Radio

Open your mouth let these suns sink you in  
Let them color your face let them pain all  
your skin let the daylight fill up the room. As we're watching the screens you're still painting the scene  
with your words you can't mean all these  
terrible things  
I'll just sit right here as you smile.  
(I'll keep waiting, TV's changing  
I'll just right here you smile.) Does nobody notice the shapes on the wall as your fingertips form them you'll  
make us  
feel small but you'll rock the rest to their sleep.  
(I'll keep waiting, TV's changing but you'll rock  
the rest to their sleep.)
